Purpose of Data Collection

Assessments International, Inc. operates as a data processor; our clients are the data controllers. AI, as a part of its business service, provides assessment tools that allow our clients to measure people based on their business

Dispute Resolution

need. Our clients commission projects and configure our system to meet their specifications. At all times the commissioning client is responsible for what data is collected, the data analysis, the application of results, and adherence to all applicable laws and regulations. Our clients at all times own the data, and the information that is resident on our system is guided by our clients' privacy policy. Assessments International does not disseminate data collected or survey results to non-commissioning clients. Moreover, AI does not sell, publish, or otherwise transfer data to third parties. Client data may be included generically in research, in aggregate group reporting, and/or used to develop norm data for use in reporting.
